

TISHRI

SEVENTH MOON

2025

FIRST DAY	SECOND DAY	THIRD DAY	FOURTH DAY	FIFTH DAY	PREPARATION	SHABBAT
The new moon was reported as sighted over Israel on 09/23/25, but none of the three observers complied with the clear requirements of the “New Moon Observation” form as supplied by Israel’s reporter Devorah Gordon of Devorah’s Date Tree. Two observers were anonymous. No other reports were received prior to 09/24/2025. Three additional reports were sent on the evening of 09/25/25, but all three used optical aids instead of naked eye observations. Due to no valid reports of new moon sightings from Israel, <u>the old month comprised 31 days</u>. “In the mouth of two or three witnesses shall every word be established” (2 Cor. 13:1).				1 YOM TERUAH Sunset: 7:18 pm September 25	2 Sunset: 7:17 pm September 26	3 Sunset: 7:16 pm September 27
